SUMMARY

Frontend Developer with 6 months of experience building and enhancing websites. Skilled in creating interactive, user-friendly web pages, integrating APIs, and optimizing site performance. Experienced in managing dynamic content, visualizing data, and supporting multiple languages. A collaborative team player who delivers high-quality web applications and continuously seeks to learn new technologies and improve development skills.
EXPERIENCE

wixflux, *Part-Time Frontend Developer*   *02/2025-08/2025*
- Develop and maintain a real estate web application using Next.js and TypeScript, focusing on delivering a seamless and responsive user experience across devices.
- Design and implement scalable, reusable UI components with optimized performance and accessibility in mind.
- Integrate real-time features and secure authentication using backend services and APIs to enhance user engagement and data security.
- Continuously improve application performance by optimizing load times, implementing best practices in web development, and ensuring high Core Web Vitals scores.

Courses & Certificates

- Finalist – Google Solution Challenge, Egypt, 4th Place Winner. June 2023. ⌯
- Frontend Development - Route ⌯ .
- Front-End Development – ITI (Information Technology Institute), .July – August 202 ⌯ 2 ⌯ .

Projects

Emergancy Online Store, *Nextjs | Tailwindcss | shadcn Ui.*
- Built a responsive e-commerce platform showcasing clothing, shoes, accessories, and more, with dynamic product browsing and cart functionality and achive 100% in SEO.
- Integrated Stripe payment gateway to enable secure transactions and seamless order placement.
- Developed an admin dashboard for managing products, inventory, and customer orders efficiently.
- Live Demo ⌯ | Github ⌯ .

Dashboard, *React | Firebase | Material Ui .*
- Built a modern and responsive dashboard using React and Material UI, improving usability and overall UI/UX.
- Implemented Context API for efficient state management and integrated Firebase for authentication and backend services.Utilized Nivo Charts to develop interactive data visualizations, enhancing user insights and engagement.
- Optimized web performance, boosting Lighthouse score from 32% to 90% and achieving perfect scores (100%) in Accessibility, SEO, and Best Practices
- Live Demo ⌯ | Github ⌯ .

Yummy application, *Reactjs | Tailwindcss | RESTFul APi.*

- Developed a food discovery web application with advanced search and filtering features, enabling users to explore recipes by name, first letter, category, and area.
- Designed and implemented detailed dish pages, showcasing comprehensive ingredient breakdowns to enhance user engagement and food transparency.
- Integrated a responsive contact form to streamline user communication and gather feedback, improving overall user experience and interaction.
- Live Demo ⬀ | Github ⬀ .

Noxe application, *React.js | Bootstrap | RESTful API.*

- Developed a movie browsing application showcasing trending movies, TV shows, and popular actors with dynamic featured content.
- Implemented robust search functionality enabling users to locate specific titles and access detailed movie or show information.
- Integrated external streaming links (e.g., YouTube**)** and designed intuitive navigation to enhance user experience and content accessibility.
- Live Demo ⬀ | Github ⬀ .

Quiz Application, *HTML, | CSS, | JavaScript | Bootstrap | RESTful APIs | OOP.*

- Developed a dynamic quiz application that fetches multiple-choice questions from an external API in real time.
- Enabled quiz customization by allowing users to select topics, difficulty levels, and question counts for a personalized experience.
- Implemented real-time scoring and retake functionality to track performance, display final results, and boost user engagement and learning.
- Live Demo ⬀ | Github ⬀ .

Skills

- **Frontend** : React.js | Next.js | TypeScript | shadcn Ui | Material UI | Redux | Context | JavaScript | UI/UX Design | Tailwind CSS | Bootstrap | CSS | HTML .
- **Backend :** Node.js | Express.js | MongoDB | RESTAPIs | Firebase .
- **Tools :** Git/GitHub | PostMan | Webpack | adobe XD | Figma .

Education

Zagazig University, *Bachelor's degree in Computer Science, Faculty of Computer*   2019 – 2023
- **Grade** : Very Good.
- **Graduation Project** : Scan for solution with NLP.
- **Grade**: Excellent

LANGUAGES

Arabic : native   **English** : very good
